Jean Tegen 1933-2018

It is in great sadness I need to write this tribute to Jean as it does mean the passing of her. But it is also a great joy we were able to know an individual who had committed her life to the agriculture industry and the people that were so dear to her heart.

Jean worked since July of 1951 as a field tester and as the former manager for Manitowoc County D.H.I.A. In 2009 Jean became co-manager of Eastern Wisconsin D.H.I.C. until the time of her death in 2018. We can now look back and remember the times we worked with Jean in the process of providing DHI services to fully understand the compassion she had for people. There were many times in her personal life or with her health, it needed to wait because there was “testing” to get done. There was also a time Jean was willing to give anything and work for nearly nothing if the Cooperative would purchase equipment to analyze milk, which would in turn help those dairy farmers in Manitowoc County. “Hats off to you, Jean” for your commitment and dedication to this industry we all love. **We know Jean has left us in 2018 but it was in 1933 a legend was born and that will remain with us as long as we all shall live.**

Will you Need Additional Feed or Crop Storage in 2018? Consider the Farm Storage Facility Loan Program

The Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures and equipment.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, soybeans, oats, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). The funds can also be used to purchase equipment such as

skid steers, grain carts, hay wagons, trucks and many other items.

Loans up to \$100,000 may be secured by a promissory note/security agreement and loans above \$100,000 will require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small to large, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSFL program please contact the Manitowoc FSA office at 683-5119 extension 2.

Submit Loan Requests for Financing Early

The Farm Loan team in Manitowoc is already working on operating loans for spring 2018 so it is important that potential borrowers submit their requests early so they can be timely processed. The farm loan team can help determine which loan programs are best for applicants.

FSA offers a wide range of low-interest loans that can meet the financial needs of any farm operation for just about any purpose. The traditional **farm operating and farm ownership loans** can help large and small farm operations take advantage of early purchasing discounts for spring inputs as well expenses throughout the year.

Microloans are a simplified loan program that will provide

up to \$50,000 to eligible applicants. These loans, targeted for smaller operations and non-traditional operations, can be used for operating expenses, starting a new agricultural enterprise, purchasing equipment, and other needs associated with a farming operation. The staff at the Manitowoc FSA office can provide more details on farm operating and microloans and provide loan applications. Loans to beginning farmers and members of underserved groups are a priority.

Persons with disabilities who require accommodations to attend or participate in this meeting should contact Tom Schneider at [920-683-5119 extension 2](tel:920-683-5119) or Federal Relay Service at [1-800-877-8339](tel:1-800-877-8339).
